## CME Syllabus and Evaluations

This year, the electronic CME syllabus and evaluation form links are being hosted on the IAFP’s website. Visit [iafp.org/2025syllabus](http://iafp.org/2025syllabus) to find PDF files of each presentation and links to electronic survey forms. You can also download a CME Certificate and find a link to report your CME credits.

You will need to log in to the IAFP’s website in order to access these materials. Your username should be the email address where you receive communications from AAFP and IAFP. You set your password the first time that you logged in. Should you have trouble logging in, you can choose to reset your password to have a reset password link sent to you OR visit the registration desk where we can reset your password for you.

Troubleshooting tips:

- If you are unable to log in, make sure you don’t have our website open in more than one browser tab. This can prevent login.
- If you choose to reset your password but do not receive an email, check your spam or junk folder for the email with the reset link.
